

Maharishi AyurVeda - Public Information

UK Product Name Peace of Mind tablets (MA1401) **Code Name** MA1401
Availability Stock item in UK

Description Helps maintain calm mind and emotions without reducing alertness.
Maintain calm and alertness at the same time

When feeling pressured or tired, a minor irritation can turn into a major blow up. It's not the incident, but the ability to cope with it that determines how stressful a situation is. The way your body reacts to stress is immediate and automatic. So improving your stress response is vital for your health and longevity. Peace of Mind tablets support the mind's natural ability to function in a calm, focused and decisive fashion.

Helps support these ayurvedic factors

- nourishes all forms of movement including thoughts, nerve impulses, circulation, elimination and respiration (Vata)
- mental activities: energy, creativity, perception, consciousness and self-realization (Prana Vata)
- the three types of mental ability; acquisition, retention and recall (Dhi, Dhriti, and Smriti)

Herbal Masterpiece

The herbs in Peace of Mind tablets are combined in exact proportions and prepared in the traditional ayurvedic way. This improves bioavailability and assimilation of vital nutrients. It also creates synergy — the collective benefit is much greater than isolated, individual herbs.

The main ingredients are renowned 'Medhya' herbs that support mental function. These are Aloeweed, Jal-Brahmi, Indian Tinospora and Liquorice.

- Aloeweed directly nourishes the nerve cells in all areas of the body.
- Pearl is traditionally one of the richest forms of calcium, which contributes to good sleep, clarity of mind, and normal brain functioning.
- Indian Tinospora has a unique effect of cleaning out the micro-circulatory channels of the body. This improves the flow of nutrients to the brain and nerve cells.
- Spikenard supports regeneration of nerve cells and is well known for its settling effects for the mind and emotions.

Ingredients
